

*Main (lead) vocal will have TWO monitors.

*Drums should be miked as appropriate. Medium-to-larger venues should have microphones, at least, on the bass drum, snare drum, and one or more overhead mics for the cymbals. Other instruments and amps should be miked as appropriate to the venue.

*Acoustic piano is preferred over electric piano, when available. Electric piano will need a sustain (damper) pedal, stool, and stand. Electric piano will need its own dedicated amp, (in addition to a DI box or Line Out).
